

Daily Meditations

MONDAY

Let's consciously open ourselves to the awareness of our oneness with the infinite presence of God. Let's consciously open ourselves to the awareness that there is no other power than the power of God -- where we are. Consciously know the truth that the Intelligence of God is operating in our experience to guide and protect us from false beliefs circulating in human ignorance. Consciously know that God is within, and is activating the dominion to bring us into harmony with the principles of all abiding love and forgiveness.

TUESDAY

We do not have to seek for fulfillment on the outer plane of existence since our existence is as Spirit. When we ponder our existence as Spirit, we bring ourselves under the dominion of God. Then we see through the eyes of God, and see God in all things.

WEDNESDAY

Now we have a consciousness of dominion. We have a consciousness of abundance. We are aware that God created all. Therefore in our conscious awareness of God, we have dominion over lack. This awareness of the infinity of God meets every need. God does not play favorites, so all that is pouring through, is pouring through to you and to me, and to everyone on the face of the earth.

THURSDAY

The light and joy of God is present always. You need not search in the realm of effect for good. Good is always present. Good is all that the Father has. We have been given dominion over everything on earth. We have God given dominion over body, purse, mind and over the world. Nothing can enter to defile or make this dominion a lie. Thank you Father that our inheritance is dominion.

FRIDAY

Our relationship with God is Oneness. Oneness means that there is no other. God made all that was made, and all that was made is good -- infinite good. Good and God is the same. Good is all that is manifested in Consciousness. Good, God fills all space in the awareness of Omnipresence. Omnipresence is our Consciousness since there is no other presence possible.

SATURDAY

Our real body is the temple of the living God. Our real body is incorporeal and invisible. Our real body is eternal and immortal. Man's eyes have not seen nor ears heard the truth about our real body. Our real body was made by God, and lives eternally as the Presence of the Infinite creator of all. Our real body cannot age, cannot decay or utter falsehoods about itself. Our real body will remain forever perfect in the bosom of the Father-Mother God, held in Its infinite perfection at all times; Held beyond time and space; Held always in Love.

SUNDAY

Let's call upon our deepest awareness of Reality today. Let's recognize that we live and move and have our being in Reality. Let's recognize that we have all the reality that the Father has because our Father has given us all Reality. How much more can we desire? Can we desire anything that our Father has not already given? Today let us give thanks and rest in the Peace that assures us that we already have all.

Recommended study – from chapter “Our Real Existence” in [The Infinite Way](#) by Joel S. Goldsmith. These meditations were written by Sandra Stephenson
